

In the Specification:

Please amend the specification as shown:

Please delete paragraph starting on line 15, page 10, and replace it with the following paragraph:

Figure 3 shows sequence analysis of the protease-encoding region of HIV-1 passaged in the presence of 1 (SEQ ID NOS 1-66, respectively in order of appearance). The amino acid sequences of protease deduced from nucleotide sequences of the protease-encoding region of HIV-1 clones determined at nine different passages are illustrated. The fraction of clones examined is indicated on the right. The amino acid sequence of protease of a wild-type pNL4-3 clone is shown as a reference. Identity with this sequence at individual amino acid positions is indicated by dots.

Please delete the header to Table 4 on page 76, and replace it with the following header:

Table 4	
Distances between equivalent C α atoms	
Molecule 1: HIV-1 PR wt: 1 <u>(SEQ ID NO: 67)</u>	
Molecule 2: HIV-1 PR V82F/I84V mutant: 1 <u>(SEQ ID NO: 68)</u>	

Please delete the header to Table 6 on page 83, and replace it with the following header:

Table 6	
Distances between equivalent Ca atoms	
Molecule 1:	HIV-1 PR wt: 1 <u>(SEQ ID NO: 67)</u>
Molecule 2:	HIV-1 PR wt: 2 <u>(SEQ ID NO: 67)</u>
